

**Channel 4 are looking for identical twins who would be interested in participating in The Food Hospital series.**

The successful ground-breaking Channel 4 series exploring the potential health benefits of food in treating a wide range of illnesses and ailments returns for a new series.

---

**Do you have an identical twin?**

**Are you both male and under 40yrs old?**

**Are you and your twin interested in taking part in a scientific study that will help with our research into the effect certain foods and diets have on our bodies?**

---

Our team of medical experts, including a GP, a specialist medical Consultant and a leading Dietitian are looking for twins who are willing to take part in a fun, scientific study that will investigate the impact of high and low fibre diets on the digestive system.

**Please get in touch for more information.**
